HOW TO USE IT

- 1 Open the included HTML file in your browser.
- 2 Confirm the note is an everyday classroom communication note.
- 3 Choose the message type, area, tone, and home action.
- 4 Add one short observable detail if needed.
- 5 Review the generated note.
- 6 Copy it into your school-approved communication platform.

YOUR DATA

The Home Talk Fix™ runs in your browser. It is designed as a drafting tool, not a database. Entries are temporary. The tool itself does not send messages, store student information, save parent contacts, or create official records.

Messages sent through school-approved platforms may still be subject to your normal school or board communication rules.

QUESTIONS

Check the Quick Start Guide first. For anything else, use the support/contact option provided on your order page.
