Open the included HTML tool first. No account, login, student database, or sending platform is required.

OPEN THE TOOL

Included file: The Home Talk Fix.html

On a computer or Chromebook, double-click the HTML file or open it in Chrome, Safari, or Edge. The tool runs in your browser.

WHAT TO DO FIRST

- 1 Open The Home Talk Fix.html in a browser.
- 2 Read the safety checkpoint and confirm the situation is an everyday classroom note.
- 3 Enter a first name only, or leave the name blank to use [Student].
- 4 Choose the message type, classroom area, tone, and parent action.
- 5 Add one short observable detail if helpful.
- 6 Review the parent note, home question, and optional acknowledgement line.
- 7 Copy only what you choose into your school-approved communication platform.

IMPORTANT BOUNDARY

This tool is for everyday classroom communication only. For serious, sensitive, safety-related, medical, legal, bullying, harassment, discrimination, IEP/accommodation, family, or formal discipline matters, use your school or board's required process and speak with admin if needed.

LICENSE REMINDER

Please do not share the HTML file, customer PDFs, or product access outside the license you purchased. Individual teacher use is included. Schoolwide use requires a school license.
