HOW TO DRAW
DRAGON AND A CASTLE

THE DRAWING FIX™ · CASTLE DRAGON
GRADES 2–4 · 12 STEPS
NAME: _____

1 Draw the dragon head and neck.
Start with the snout, curve over the head, then sweep down into the neck.

2 Add the eye, nostril, and horns.
Place one eye near the top and two short horns behind the head.

3 Draw the curled body.
Bring the body down and curl it forward like a letter S.

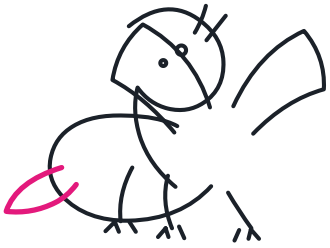

4 Add the left wing.
Make a big wing that rises up from the back.

5 Add the right wing.
Mirror another wing on the other side.

6 Draw the legs and claws.
Put two front legs and one back leg under the body.

7 Add the tail spike.
Extend a tail to the side and finish it with a point.

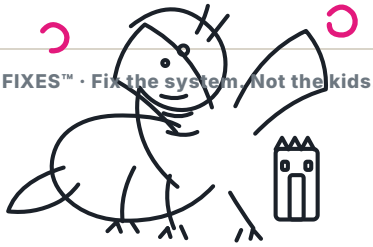

8 Draw the tiny castle tower.
Put a simple tower under the dragon.

9 Add belly lines.
Draw a few curved bands down the dragon's belly.

THE FIXES™ · Fix the system. Not the kids. · Original art © The Fixes Program · Free at thefixesprogram.com/how-to-draw/dragon-castle/

10 Add smoke or cloud curls.
Put one or two little swirls in the sky.

11 Add a moon or star.
Finish the sky with one simple shape.

12 Make one part yours.
Add a flag, another spike, or any fantasy detail you invent.
