HOW TO DRAW
MECHANICAL MOTH

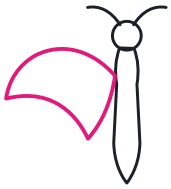

THE DRAWING FIX™ · MECHANICAL MOTH
GRADES 6–8 · 15 STEPS
NAME: _____

1 Body
Draw the long segmented centre body.

2 Head and antennae
Add the head and two curved antennae.

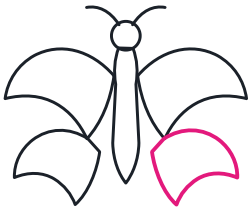

3 Upper left wing
Build the large upper-left wing shape.

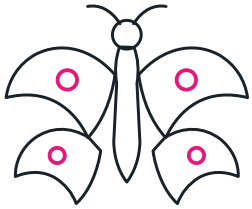

4 Upper right wing
Mirror the large upper-right wing.

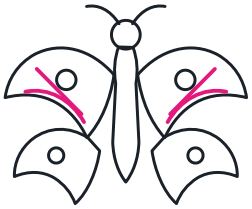

5 Lower left wing
Add the smaller lower-left wing.

6 Lower right wing
Mirror the lower-right wing.

7 Wing circles
Place the four circular wing details.

8 Upper wing lines
Add the long mirrored lines across the upper wings.

9 Lower wing lines
Add the mirrored lower-wing pattern lines.

10 Body bands
Add the horizontal body bands.

11 Body rivets
Place the repeated centre circles.

12 Mechanical marks
Add the two angular mechanical wing marks.

13 Head accents
Add the two short head accent marks.

14 Ground line
Add the long quiet baseline underneath.

15 Create
Make one part completely yours.
